Scrapbook Tip: Vacation with a Journal

Yes-VACATION time! The suitcases are packed, the plane tickets are confirmed, and the family is ready for a summer vacation! Have you decided how you will handle the large database of pictures when you return?

Will you be able to remember all the special moments during the last 7 or 14 days? Can you remember what day that fantastic picture was taken? What about the day you went to see that special monument and heard the interesting facts? Will you be able to recall them to enhance the pictures in your scrapbook?

Christie's Scrapbook Tip for Vacation is to JOURNAL. Logging the memories from your vacation, while you are on vacation, will make the memories even more meaningful once you return. Sharing with family and friends will be more interesting if you can actually remember what you did. Your scrapbook will be more interesting if you write the memories from your journal throughout the pages. So before you head out on your great vacation for this summer, please remember your JOURNAL!

Plus, once you return and decide to contact Christie to help you turn your pictures into a story, having a journal to refer to will facilitate the process of vacation pictures to vacation memories.
