Quick Garage Tips

No matter if you purchase an
expensive custom garage storage
system or just hang a few hooks
for your bikes, investing in your
garage is a good idea. Hey, you
might even fit your car in there
once it's organized!

* Think of your garage in terms

of zones: automotive, gardening, sports, tools, toys, etc. Consolidate items for easy retrieval, placing items as close as possible to where they will be used. For example, keep gardening accoutrements in a large basket by the outside door. Place recycling bins right next to the interior door. Put tools near the workbench.

* Install pegboard on one wall. Use hooks to hold tools and gardening equipment. Pop in brackets and you can install shelving as well. Then use labeled jars or a multi-drawer storage system to separate small pieces of hardware.

* Get things off the floor and onto the walls and ceiling. Install inexpensive hooks to hold bikes, rakes, brooms, sleds, ladders, and hoses. Install cabinets and shelving along the back or side walls.

* Make it easy for kids to access and put away their own stuff. A tall can will neatly hold hockey sticks, baseball bats, and other long items. Corral balls in a large bin.

* Finally, keep a fire extinguisher handy, mounted on the wall.

Happy Organizing!

Thank you,

Christie Gelsomino
